Notice of the agreement concerning renewable energy transactions with ITOCHU ENEX CO., LTD.

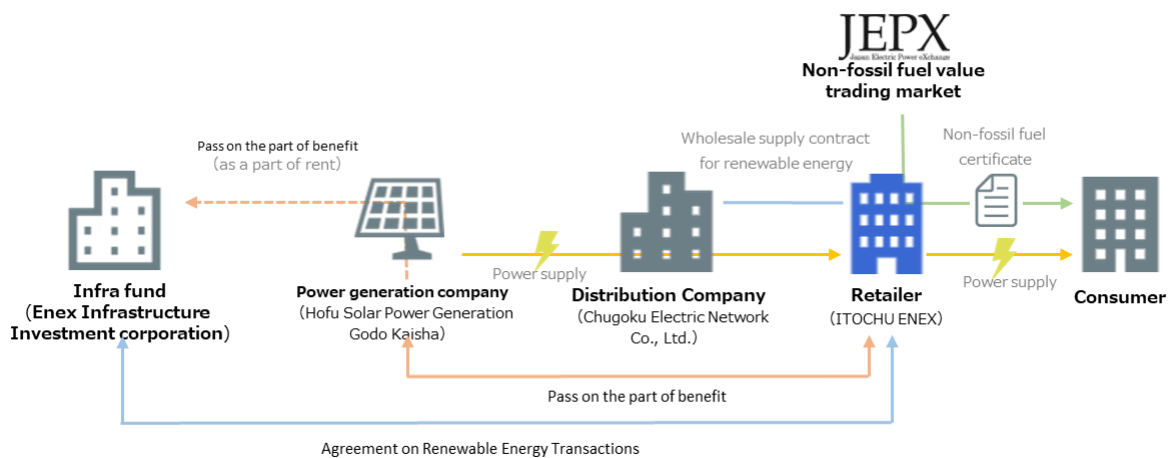

Enex Infrastructure Investment Corporation (hereinafter “EII”), together with ITOCHU ENEX CO., LTD. (“ITOCHU ENEX”), the sponsor of EII, is working to expand the introduction of renewable energy and power generation facilities that contribute to the global environment. We would like to inform that ITOCHU ENEX and EII have concluded the Agreement on Renewable Energy Transactions. Based on this agreement, EII and ITOCHU ENEX will further promote the use of renewable energy.

On Nov 1, 2020, ITOCHU ENEX starts to procure power generated by Hofu Solar Power Generation Godo Kaisha based on this agreement. As retailing in the Hofu area, ITOCHU ENEX is now able to qualify a discount for the supply rate in areas close to demand for the power. Part of the benefit generated by this discount is to be passed by ITOCHU ENEX to EII through Hofu Solar Power Generation Godo Kaisha. The impact of EII on the forecast for the year ending Nov. 2020, which was published in the Interim Financial Results for the Fiscal Year Ending Nov. 2020 dated Jul 15, 2020, is immaterial and remains unchanged.

EII will continue to work with ITOCHU ENEX to further develop renewable energy and realize a sustainable society amid growing environmental consciousness such as RE100(*).

(※) An international initiative in which companies with the goal of procuring 100% of business operations with renewable energy are affiliated. Abbreviation for “Renewable Energy 100%”.
